course overview

Bright minds come together to explore the **foundational logic of artificial intelligence**. Through a medley of affirming growth mindset exercises, creative **paper-based coding**, fun **block-based programming**, and project-based team **hackathons**, we cultivate the computational and algorithmic thinking kids need to create confidently.

Our program structure:
- 10-session course consisting of 75-minute classes
- Instructor team of **Stanford and MIT** students & alumni
- Sessions **designed by experts and tested by kids** to cultivate safe & fun exploration of AI questions
- Content encourages **exploration of creative and engineering skills**, as well as sharing your work!
